

Services, organized the way you buy them.

The NIST Cybersecurity Framework splits security into six functions. Find the one you are buying for and you'll see exactly what Apex delivers under it, with the framework category beside each line.

 **GV Govern**  **ID Identify**  **PR Protect**  **DE Detect**  **RS Respond**

 **RC Recover**

GV

Govern

Set the strategy, policy and oversight every other function answers to.

GV . PO

Compliance readiness for NIST, ISO 27001, HIPAA and CMMC

(apexcybersecurity.org/consulting.html#scope)

GV . RM

Risk advisory: objectives, measures and defensive strategy

(apexcybersecurity.org/consulting.html#scope)

GV . OV

Governance, risk and compliance oversight led by a Chief GRC Officer →

(apexcybersecurity.org/team.html#corey-thurman)

Service lines: Consulting & Compliance

ID

Identify

Know your assets, your risks and exactly where you stand today.

ID . RA

Security risk assessments across infrastructure, policy and user behavior →

(apexcybersecurity.org/consulting.html#scope)

ID . RA

Vulnerability and threat analysis to find weaknesses and compliance gaps →

(apexcybersecurity.org/consulting.html#scope)

ID . RA

Vulnerability management: misconfigurations and exposed credentials →

(apexcybersecurity.org/mdr.html#scope)

ID . IM

Security architecture review for network, cloud and endpoints →

(apexcybersecurity.org/consulting.html#scope)

Service lines: Consulting & Compliance, Managed Detection & Response, DevOps & App Development, Network Infrastructure

Protect

Safeguard endpoints, networks, doors and the people who use them.

PR . PS

Next-gen endpoint prevention that blocks known and new attacks →

(apexcybersecurity.org/edr.html#scope)

PR . IR

Firewall, SD-WAN, SASE and software-defined networking →

(apexcybersecurity.org/network-infrastructure.html#scope)

PR . AA

Key card, fob, mobile and keypad door access control →

(apexcybersecurity.org/integrated-security-systems.html#access)

PR . PS

Secure DevOps and software development on Azure and AWS →

(apexcybersecurity.org/devops.html#scope)

PR . AT

Security awareness workshops and the Apex Institute →

(apexcybersecurity.org/learning-platform.html)

Service lines: [Endpoint Detection & Response](#), [DevOps & App Development](#), [Network Infrastructure](#), [Integrated Security Systems](#), [Apex Institute](#)

Detect

Watch everything, around the clock, and find attacks early.

DE . CM

24/7 Managed Detection and Response from a cloud-powered virtual SOC

(apexcybersecurity.org/mdr.html)

DE . CM

Continuous endpoint monitoring, recording and centralizing of activity

(apexcybersecurity.org/edr.html#scope)

DE . AE

Real-time alerting and triage of critical events

(apexcybersecurity.org/mdr.html#scope)

DE . CM

Enterprise security cameras with cloud video management

(apexcybersecurity.org/integrated-security-systems.html#cameras)

DE . CM

Solar-powered mobile surveillance trailers, delivered nationwide

(apexcybersecurity.org/mobile-surveillance-trailers.html)

Service lines: [Managed Detection & Response](#), [Endpoint Detection & Response](#), [Integrated Security Systems](#), [Mobile Surveillance Trailers](#)

RS

Respond

Contain incidents fast, with clear guidance on what to do next.

RS . MI

Host isolation that stops lateral spread on your behalf →

(apexcybersecurity.org/edr.html#scope)

RS . MA

Rapid containment with detailed remediation guidance →

(apexcybersecurity.org/mdr.html#scope)

RS . AN

Active threat hunting and root cause determination →

(apexcybersecurity.org/edr.html#scope)

RS . MA

Incident response planning and tabletop exercises →

(apexcybersecurity.org/consulting.html#scope)

Service lines: [Consulting & Compliance](#), [Managed Detection & Response](#), [Endpoint Detection & Response](#)

RC

Recover

Restore operations and come back with stronger defenses.

RC . RP

Response and recovery protocols, tested before you need them

(apexcybersecurity.org/consulting.html#scope)

RC . RP

Cloud and network infrastructure rebuild and managed services

(apexcybersecurity.org/network-infrastructure.html#scope)

Service lines: [Consulting & Compliance](#), [Network Infrastructure](#)
